

Company Fact Sheet

Serotek Corporation

Business: Serotek Corporation develops software and manufactures accessibility solutions that make it possible for anyone, regardless of sight or physical limitation, lack of internet savvy or access to a mouse, keyboard, or screen, to still access and command all of the resources of the Internet and operate most any digital information device. Serotek also operates a complete Internet service provider and online community specifically designed to meet the needs of people with disabilities. Since its inception, Serotek has introduced several powerful, affordable solutions that require minimal training, including System Access, for which it was awarded the prestigious da Vinci award for innovation in universal accessibility by the National Multiple Sclerosis Association.

Headquarters: Serotek Corporation
1128 Harmon Place
Suite 310
